

Vineyard Manager

Kerry Hill Winery in Wilder, ID is looking for a Vineyard Manager

We have a 30 acre vineyard and will be opening a tasting room in late summer 2019. Our vines are 30-35 years old and have 10 varietals.

We are looking for a vineyard manager who is an energetic individual who can manage irrigation, workers, fruit production, virus sampling, spraying, drive a tractor, and be our plant health expert, etc.

Experience would be great, but we are willing to work with the right person who wants to grow with us. We do not currently have our own winemaker, and the vineyard manager could move into that as well, if they are interested.

Salary is dependent on experience. Bilingual English/Spanish would be a plus.

How to Apply

Please email your resume and an explanation of why you would be right for the position to kerryhillwinery@gmail.com
