

### **Company Overview**

A certified B Corp and a global 2015 B Corp Champion, A to Z Wineworks has been recognized as one of the top four small businesses in Oregon two years in a row and as one of the top ten most admired agricultural companies in the state. One of Oregon's largest wineries, a joyful commitment to excellence in quality, service, education and value distinguishes the company.

### **The Opportunity**

REX HILL & A to Z Wineworks, located in Oregon's picturesque Northern Willamette Valley, seeks qualified Viticulture intern for the 2017 summer growing season.

At A to Z Wineworks, we farm and support the farming practices of over 50 vineyards, from Southern Oregon, the Columbia Gorge and throughout the Willamette Valley. This diversity of fruit comes from our bio-dynamically farmed and LIVE-certified estate vineyards, as well as a number of sustainably and conventionally farmed locations across many different AVAs.

Our internship begins early June and has the potential to last through harvest (mid- to late October). We value an intern who shares in our company culture of working hard, working smart, and enjoying what we do. You will work with our Viticulturist who is willing to share what they know, and provide you with tasks and projects that will help strengthen your knowledge of practical viticulture practices. This contributes to the excellent opportunity to learn more about farming quality wine grapes across Oregon.

### **Responsibilities**

#### Vineyard Reporting

- Vineyard scouting for pests & diseases
- Data collection for yield estimation
- Carry out data collection and implementation of vineyard experiments
- Plant tissue and soil sampling
- Keeping phenology records
