- Medical, vision, and dental insurance
- Public Employees Retirement System (PERS)
- Vacation, sick and personal leave
- Paid holidays

## Job Description

As a seasonal field technician/laborer you will be issued a state vehicle to perform your job. Most work will occur outdoors while performing duties such as setting/checking survey traps for spongy moth, Japanese beetle, and other insects that threaten Oregon's agriculture. A typical schedule is 40 hours a week, Monday-Thursday.

Official recruitment for our seasonal field technician/laborer positions will be posted between February and March. Positions begin April 15, 2024 and typically continue into October. For more information you may contact Holly Wantuch, Survey and Operations Lead for the Southwestern Oregon Field Office at [holly.wantuch@oda.oregon.gov](mailto:holly.wantuch@oda.oregon.gov).
